

## **Students admission**

Tikrit University Engineering is a global leader in engineering education and research. Nearly all of TU's 22 colleges and divisions rank among the best in their fields, and Engineering is no exception. It is also top one in admission capacity in the northern area of Iraq and the highest Scopus rate based on research citation. Both our undergraduate and graduate programs are highly ranked and have a strong reputation for excellence, and Tikrit Engineering's faculty are among the best in the Iraq.

Tikrit University Engineering welcomes international applicants. International students are those who seek admission with advanced standing that are meet any one of the following criteria:

- Not an Iraq Citizen or permanent Iraqi Resident
- Do not speak Arabic as a native language
- Attended school outside of the Iraq.

International applicants are required to:

- [Provide proof of English proficiency](#)
- [Obtain the necessary international credentials](#)
- [Provide approved transcripts](#)

## **Steps to Apply:**

1. Fill out the online Web Application on Ministry of Higher Education and Scientific Research (MOHSER)
2. Submit additional application materials such as high school transcript, test scores, financial documents (if you are international or evening study student).

You must submit your online application and have all required materials in by the deadline, or you will not receive your admissions decision on the scheduled date.

## **Application Deadlines**

- For application deadlines, please talk to your advisor at the TU.
- You need plenty of time to allow your TOEFL, or IELTS scores sent to our office. If you think you'll take English tests more than once, start planning even sooner.

## **The Paperwork**

### **Application Materials Required**

- [The Common Application](#) high school transcript supplement
